### Beanie Major

When asked for her favourite jewellery-related line from a movie, Beanie Major doesn't miss a beat. 'Why, a woman going anywhere but the hospital would always take makeup, perfume, and jewellery,' uttered by Grace Kelly's character Lisa in Hitchcock's *Rear Window*, and it gives Beanie – who compiled our jewellery shopping

pages – instant cinematic credibility. A jewellery consultant, personal shopper and stylist, Beanie's website *In Detail* is a goldmine of jewellery style in interviews and images.

### Robin Swithinbank

Robin is a watch critic and contributor to titles such as the *Financial Times*, the international *New York Times*, *Wired* and *Condé Nast Traveller*. He admits to being a *Back to the Future* fan, which suited us well for this issue, where he takes a look at the trend for putting modern watch movements in retro-looking cases (p75). If he had access to a time machine for one day, he says, 'I'd go back to the day I was born to see what the world was like as I began life.'
